---

## CAREER OBJECTIVE

---

I am a passionate and results-driven data science enthusiast with a strong foundation in machine learning, data analysis, and web development. With experience in Python, MySQL, and basic JavaScript, I have developed a solid understanding of how to turn raw data into actionable insights. My expertise lies in applying machine learning algorithms to real-world problems, with a focus on text classification, data preprocessing, and model evaluation.

---

## EDUCATION

---

KAVITA DEGREE AND PG COLLEGE (KAKATIYA UNIVERSITY)	Khammam  2025
--	---------------

- CGPA: 8.1

MADHU DEGREE COLLEGE (KAKATIYA UNIVERSITY)	Khammam  2023
--	---------------

- CGPA: 7.0

MADHU JUNIOR COLLEGE	Khammam  2020
----------------------	---------------

- MARKS: 541

MADHU VIDHYALAYAM	Khammam  2018
-------------------	---------------

- CGPA: 9.0

---

## SKILLS

---

- **Programming Languages:** Python, MySQL, Java Script (Basics) , HTML, CSS
- Data Science Using Python and Machine Learning
- Machine Learning Fundamentals and Tabulae

---

## PROJECTS

---

### Resume Classification Using Machine Learning –

Developed a machine learning model to classify resumes into job categories using text content. Implemented data preprocessing (text cleaning, tokenization, TF-IDF), and applied algorithms like Logistic Regression and Naive Bayes for job relevance prediction. Evaluated performance with accuracy, precision, recall, and F1-score, streamlining the resume screening process.

---

## INTERNSHIPS

---

- **AIVARIANT Data Science:-**Virtual Internship

---

## CERTIFICATIONS

---

- Certified in Data Science using Python and machine learning (**Excelr Solutions**)

---

## PERSONALITY TRAITS

---

- Punctual
- Self-learner, Workaholic

---

## DECLARATION

---

I hereby declare that the above-furnished information is true to the best of my knowledge and capabilities.
